

Cut table Heat Transfer PU Flex Regular

Alizarin Cuttable PU Heat Transfer Flex Regular is an ecologically proven polyurethane film with matt, reflection free surface, in accordance with Oeko-Tex Standard 100. It is suitable to transfer onto textiles like cotton, mixtures of polyester/cotton and polyester/acrylic. And can be used for lettering on T-shirts, sport & leisure wear, sport bags and promotional articles. PU Flex Regular can be cut with all current plotters. We recommend to use a 30° knife. After weeding the cut flex film is transferred by heat press. **Cuttable Heat Transfer PU Flex Regular** with a release polyester liner, enables a reposition. The polyester liner should be removed completely **cold**.

The raw materials are ecologically inert, do not contain PVC, plasticizers or heavy metals. It is washable at 60°C.

Nylon and textiles with hydrophobic impregnation are not suitable for heat transfer. In this case we recommend using PU Flex Premium.

	Cotton	Cotton/ Polyester (Mixture)	Polyester/Acrylic (Mixture)
PU Flex Regular	155 - 165°C X 25sec	155 - 165°C X 25sec	155 - 165°C X 25sec
