

## Cuttable Heat Transfer PU Flex Premium

**Alizarin Cuttable Heat Transfer PU Flex Premium** is an ecologically proven polyurethane film with matt, reflection free surface, in accordance with Oeko-Tex Standard 100. It is suitable to transfer onto textiles like cotton, mixtures of polyester/cotton and polyester/acrylic. And can be used for lettering on T-shirts, sport & leisure wear, sport bags and promotional articles. PU Flex Premium can be cut with all current plotters. We recommend to use a 30° knife. After weeding the cut flex film is transferred by heat press. **PU Flex Premium** with an adhesive polyester liner, enables a reposition. The polyester liner should be removed with hot or cold.

It is washable at 60°C. Nylon and textiles with hydrophobic impregnation are suitable for PU Flex Premium. The raw materials are ecologically inert, do not contain PVC, plasticizers or heavy metals.

	Cotton	Cotton/ Polyester (Mixture)	Polyester/ Acrylic (Mixture)
<b>PU Flex Premium</b>	155 - 165°C X 25sec	155 - 165°C X 25sec	155 - 165°C X 25sec
